

Random SONIC MOLECHASER®

STOP IMMUNITY!

KEEP BURROWING RODENTS OUT OF YOUR GARDEN FOREVER!

EM-997R

Random SONIC MOLECHASER is a newly designed model with the custom designed ASIC (Application Specific IC.)

The sonic sounds can be produced and emitted at random intervals. Those field pests won't be able to adapt themselves to the sound and vibrations created by Random SONIC MOLECHASER, thus move away from the protected area forever.

- * RANDOM DURATION TIME OF SOUND & INTERVALS
- * ENERGY SAVING WITH UNIQUE HIBERNATING CIRCUIT DESIGN
- * BATTERY LIFE UP TO 10 MONTHS
- * NO MORE GAS, TRAPS OF POISON
- * SAFE AND EFFECTIVE
- * SOLID, DURABLE ALUMINUM SHAFT
- * MAINTENANCE FREE
- * 100% WATERPROOF

BURROWING RODENTS AFFECTED:

- * GOPHERS
- * MOLES
- * GROUND SQUIRRELS
- * ALSO, SHREWS, VOLES, POCKET MICE AND KANGAROO RATS
